The following pictograms are used in these operating instructions / on the equipment:

	Please read the operating instructions!		Never point the device at people or animals.
	Observe the warning and safety instructions!		Keep children away from the device!
	Wear ear protection, dust mask, safety glasses and protective gloves.		Dispose of packaging and device in an environmentally-friendly way!
	Direct current		

### Pneumatic tyre inflator PDRD A1

#### Introduction

Congratulations! You have chosen high-quality device by our company. Familiarise yourself with the product before using it for the first time. In addition, please carefully refer to the operating instructions and the safety advice below. Initial operation of this tool must be performed by trained personnel. Keep these instructions in a safe place. If you pass the device on to anyone else, please ensure that you also pass on all the documentation.

#### Intended use

With suitable accessories the pneumatic tyre inflator can be used to pump up and regulate the air pressure in bicycle tyres, inflatable dinghies, air beds, balls, etc. This article is not to be used contrary to the stipulated conditions of intended use detailed in the instruction leaflet. The manufacturer accepts no responsibility for damage or injury resulting from non-observance of the instructions or from any form of misuse. This device has been designed for household use and may not be used for commercial or industrial purposes.

The display is powered by 2 LR 03 AAA 1.5V batteries that are stored behind the display (approx. 3 years operational durability). Should the display fade or work incorrectly, please replace the batteries.

#### Scope of delivery

1 Digital pneumatic tyre inflator

1 Set of operating instructions

#### Technical Data

Operating pressure: max. 6.2 bar

Rated voltage range: 3 V

Compressed air quality: Cleaned, oil-free and free of condensation

Volume flow: Standard flow: 100–300 l/min.

Sound pressure level: 86 dB(A)

Acoustic capacity: 98 dB(A)

Measured value: Corresponds to: EN ISO 14462

The display is powered by 2 LR 03 AAA 1.5V

batteries that are stored behind the display (approx. 3 years operational durability).

Should the display fade or work incorrectly, please replace the batteries.

#### Intended use

With suitable accessories the pneumatic

tyre inflator can be used to pump up and

regulate the air pressure in bicycle tyres,

inflatable dinghies, air beds, balls, etc.

This article is not to be used contrary to the

stipulated conditions of intended use de-

tailed in the instruction leaflet. The manu-

facturer accepts no responsibility for dam-

age or injury resulting from non-observance

of the instructions or from any form of mis-

use. This device has been designed for house-

hold use and may not be used for commer-

cial or industrial purposes.

#### Original Accessories / Auxiliary equipment

Use only the accessories and attachments

detailed in the operating instructions.

Using other types of additional parts

can cause danger.

### Safety information

**A WARNING!** Basic safety measures must be followed when using compressed air device to eliminate the risk of fire, electric shock and personal injury. Be sure to read the following instructions prior to using the equipment and store them in a safe location. The manufacturer assumes no liability for damages or personal injury resulting from failure to follow these operating instructions.

■ Children or persons who lack the knowledge or experience to use the device or whose physical, sensory or intellectual capacities are limited must never be allowed to use the device without supervision or instruction by a person responsible for their safety. Please ensure that children cannot play with this unit.

■ Do not use the equipment when tired or under the influence of drugs, alcohol or medications. One moment of carelessness when using the equipment may result in serious injuries. Distractions can cause you to lose control of the device.

■ Before any repair and maintenance work or transport, remove the device from the compressed air source.

■ Before using the unit, check it for damage, and especially for light damage or damage to the protective systems. These must be thoroughly checked to confirm that they are indeed completely capable of performing their intended tasks.

All unit parts must be correctly assembled and comply with all guidelines in order to ensure correct and safe operation.

■ If you ascertain that the unit is indeed damaged, do not use the unit. This could cause damage.

■ **A WARNING! EXPLOSION HAZARD!** Use this device in well-ventilated areas only. Never use petrol or other flammable liquids to clean the air tool! Sparks could ignite residual vapours inside the compressed air equipment resulting in the compressed air equipment exploding.

■ **A WARNING! RECOLL!** When used under high pressure conditions, recoil can occur which can cause danger due to constant pressurisation.

■ **A WARNING! RISK OF INJURY!** Never point the air jet towards yourself or other people, animals, or electrical equipment.

■ During maintenance, switch off the compressed air supply.

■ Never exceed the maximum permitted operating pressure of 6.2 bar. Use a pressure reducer to adjust the operating pressure.

■ Switch the device off if you do not use it anymore.

### Start-up

#### Before first use

□ Remove the battery compartment lid [9] on the rear.

□ Replace with battery type LR 03 AAA 1.5V. Check the polarity of the batteries.

□ Close the battery compartment [10] by replacing the battery compartment lid [9].

■ **Connecting the compressed air source**

**Warning:** Never exceed the maximum permitted operating pressure of 6.2 bar.

**Warning:** In order to regulate the pressure, the compressed air source must be fitted with a pressure regulator.

□ Connect the unit to a suitable compressed air source. Now connect the supply pipe using the quick-release connector to the coupling plug on the pneumatic tyre inflator.

■ **Using the pneumatic tyre inflator**

□ Connect the unit to a compressed air supply and press the On/Off switch [3] on the pneumatic tyre inflator display [4]. The unit is now activated.

□ Press the trigger [8] to start the air flow.

□ Release the trigger [8] to stop the air flow.

□ Using the button [2] you can switch between the various measuring units (PSI, bar, kPa, Kgf/cm²).

□ If you have inflated too much air into the article: Press the release button [5] to release some of the air.

□ Press the lever down on the valve plug and pull off the valve cap from the valve.

□ Disconnect the unit from the compressed air source after finishing the work.

**Warning:** First of all, disconnect the tube from the compressor and when you have done this, disconnect the supply pipe from the unit. Following these instructions will

stop the supply pipe from twirling around all over the place.

### Changing the batteries

□ Remove the battery compartment lid [9] on the rear.

□ Remove the used batteries.

□ Replace with battery type LR 03 AAA 1.5V. Check the polarity of the batteries.

□ Close the battery compartment [10] by replacing the battery compartment lid [9].

### Maintenance and Cleaning

#### WARNING! DANGER OF INJURY!

The device requires no maintenance.

■ Do not use corrosive or aggressive cleaning agents. Do not allow any liquids to enter the device. Otherwise the device could be damaged.

□ Clean the casing with a dry cloth.

### Service

Only your unit to be maintained and serviced by qualified service personnel. This will maintain the safety features of your unit.

### Warranty

**Creative Marketing Consulting GmbH warranty**

Dear customer, the warranty for this device is 3 years from the date of purchase. In the event of product defects you have legal rights against the retailer of this product. Your statutory rights are not limited in any way by our warranty details below.

### Warranty terms

The warranty period begins on the date of purchase. Please retain the original receipt safely. This document is required as your proof of purchase.

Should this device show any fault in materials or manufacture within 3 years from date

of purchase, it will be repaired or replaced - at our choice - by us free of charge. In the event of malfunctions or other defects please first contact the service department by phone or e-mail. A product recorded as defective, along with the proof of purchase (sales receipt) and a description of the defect and when it occurred, can then be returned free of charge to you to the service address provided.

If the defect is covered by our warranty, we will return the repaired equipment or replacement thereof. A repair or exchange of the equipment does not extend a new warranty period.

#### Scope of warranty

The appliance has been manufactured to strict quality guidelines and meticulously examined before delivery.

The warranty applies to faults in material or manufacture. This guarantee does not apply to products which are subject to normal wear and tear and can be regarded as wearing parts, or for damage to breakable parts, e.g., switch, rechargeable batteries, or parts which are made of glass.

This warranty becomes void if the device has been damaged or improperly used or maintained. All instructions provided in the operating instructions must be followed strictly to constitute proper use of the product. Uses and actions contrary to those set out in the operating instructions, and which are ill-advised or warned against, must be avoided at all costs.

This product is intended for private, non-commercial use only. Any incorrect or improper use of the device, use of force and changes not performed by our authorized service branch will void the warranty.

#### Procedure in the case of warranty

Please follow the instructions below to ensure quick processing of your claim:

Please retain proof of purchase and the article number (e.g., IAN). The product number can be found on the type plate, an engraving, the cover page of your instructions (bottom

left) or the decal at the back or bottom. In the event of malfunctions or other defects please first contact the service department by phone or e-mail. A product recorded as defective, along with the proof of purchase (sales receipt) and a description of the defect and when it occurred, can then be returned free of charge to you to the service address provided.

kvittot skickas till oss inom tre år tillsammans med en kort skriftlig beskrivning av felet och när det uppstod.

Om defekten omfattas av vår garanti, får du tillbaka den reparera den produkten eller en ny produkt. Genom reparation eller byte av produkten inleds ingen ny garanti.

#### Garantins omfattning

Denna apparat har tillverkats med omsorg enligt stränga kvalitetskrav och kontrollerats noggrant före leverans.

Garantin gäller för material- eller tillverkningsfel. Denna garantiförstånd är inte produktkomponenter som utvärts för normalt slitage och därfor betraktas som slitdelar. Utelämnas är även omöjliga delar som t.ex. brytare, batterier eller delar tillverkade av glas.

Denna garantiförstånd om produkten skadas, används på fel sätt eller under inderhålls. För att produkten ska användas på ett korrekt och fackmässigt sätt måste alla instruktioner i bruksanvisningen följas. Användningsan- dömål och hantering, som bruksanvisningen avråder från eller varnar för, måste under alla omständigheter undvikas.

Produkten är endast avsedd för privat bruk och får inte användas yrkesmässigt. Vid miss- bruk och felaktig behandling, användande av vält och vid ingrepp som inte gjorts av vår auktorisera servicefilial upphör ga- rantin att gälla.

#### Hantering av garantianspråk

För att vi ska kunna handlägga ditt årende snabbare, ber vi dig beakta följande anvisningar:

Ha alltid kassavittot och produkterns artikelnummer (t.ex. IAN) till hands som inköpsbe- vis. Artikelnumret hittar du på typskylten eller ingraverat på produkten, på etiketten i bruk- sonvisningen ( längst ned till vänster) eller på en etikett på produkterns baksida eller under- sida. Om funktionsfel eller andra fel skulle

upprätta, ber vid dig kontakta sedan nämnda serviceavdelning via telefon eller e-post. En produkt som registreras som defekt kan du sedan skicka portofrakt till den servicebedriven som du meddelats. Tänk på att bifoga inköpsvittot (kassavittot) och in- formation om typ av fel och tidpunkten när detta uppträde.

Die Garantieleistung gilt für Material- oder Fabrikationsfehler. Diese Garantie erstreckt sich nicht auf Produkteile, die normaler Ab- nutzung ausgesetzt sind und daher als ver- schleißteile angesehen werden können oder für Beschädigungen an zerbrechlichen Teilen, z. B. Schalter, Akkus oder solchen, die aus Glas gefertigt sind.

Diese Garantie verfällt, wenn das Produkt beschädigt, nicht sachgemäß benutzt oder gewartet wurde. Für eine sachgemäße Be- nutzung des Produkts sind alle in der Bedeu- ngsanleitung aufgeführten Anweisungen genau einzuhalten. Verwendungszwecke und Handlungen von denen in der Bedeu- ngsanleitung abgeraten oder vor denen gewarnt wird, sind unbedingt zu vermeiden.

Das Produkt ist lediglich für den privaten und nicht für gewerblichen Gebrauch be- stimmt. Bei missbräuchlicher und unsach- gänger Behandlung, Gewaltanwendung und bei Eingriffen, die nicht von unserer autorisierten Service-Niederlassung vorgenommen wurden, erlischt die Garantie.

#### Abwicklung i Garantifall

Um eine schnelle Bearbeitung ihres Anlie- gens zu gewährleisten, folgen Sie bitte den folgenden Hinweisen:

Bitte halten Sie für alle Anfragen den Kas- senbon och die Artikelnummer (z. B. IAN) als Nachweis für den Kauf bereit. Die Arti- kelnummer entnehmen Sie bitte dem Typen- schild, einer Gravur, dem Titellblatt ihrer Anleitung (unten links) oder dem Aufkleber auf der Rück- oder Unterseite. Sollten Funkti- onsfehler oder sonstige Mängel auftreten, kontaktieren Sie zunächst die nachfolgend benannte Serviceabteilung telefonisch oder per E-Mail. Ein als defekt erfasstes Produkt können Sie dann unter Beifügung des Kauf- belegs (Kassenbon) und der Angabe, worin der Mangel besteht und wann er aufgetreten ist, wie- derum Ihre Wahrheit für die Tatsache, dass der Mangel bestehen und wann er aufgetreten ist.

Wenn der Defekt von unserer Garantie ge- deckt ist, erhalten Sie das reparierte oder ein neues Produkt zurück. Mit Reparatur oder Austausch des Produkts beginnt kein neuer Garantiezeitraum.

#### Garantiumfang

Das Gerät wurde nach strengen Qualitäts- richlinien sorgfältig produziert und vor An- lieferung gewissenhaft geprüft.

#### Miljöinformation och uppgifter om avfallshantering

Återvinning av råvaror istället för avfallshantering!

Apparat, tillbehör och förpack- ning måste lämmas till miljövänlig återvinning.

#### Försäkran om överensstämmelse CE
